Jesus, the Lord of Much more Grace

Romans 5:15-17

Nothing is more
characteristic of God's
presence than grace

Grace is creative.

Grace adds foreign energy,
purposeful intelligence to
incapable undeserving to
make something which it
would not be on its own, or
naturally.

Jesus grace to Paul personally

He took this rebellious lump of humanity, which was heading down the path of self-destruction and eternal damnation. He engaged him with energy and purpose and made him into what he would never be other wise.
